Additional information

The Company may acquire its own shares and transfer the shares thus acquired in accordance with the provisions of the Belgian Companies Code.

The Board of Directors is by article 13 of the bylaws empowered to acquire, within the legal limits, the maximum number of own shares permitted by law. The price paid for these shares must not be more than 5% above the highest closing price in the 30-day trading period preceding the transaction, and no more than 10% below the lowest closing price in that same 30-day trading period. This mandate is granted for a period of five years as of 20 April 2016.

plan"	for complementary pensions appli	anagement of the staff members, Proximus has providicable to Proximus PLC under Belgian Public Law and of this complementary pension plan.			
and fo 8th, 1	The rights of the participants of this plan are recognised as from January 1st, 1997 at the earliest. For the execution of these commitments and for the management of the assets that are gathered for this, a Pension Fund has been founded and recognised by R.D. of December 8th, 1998. In 2015 it took the name "Proximus Pensioenfonds O.F.P."/ "Fonds de Pension Proximus O.F.P." via the amendment of its articles of incorporation published in the annexes to the Belgian Official Gazette on 09/06/2015.				
In 2006 the plan was amended with effect on January 1st, 2005, in 2013 with effect on 01.04.2013 and in 2016 with effect on 01.09.2016. On the basis of an actuarial calculation according to the PUC- method (Project Unit Credit), based on a nominal discount rate of 1,80 % and the expected evolution of the salaries, the total amount of DBO (Defined Benefit Obligation) obligations to the staff members of Proximus PLC under Belgian Public Law amounts to 628.609 KEUR on December 31st, 2018.					
The amount of obligations of this fund (Proximus S.A. de droit public/N.V. van publiek recht including some subsidiaries) amounts to 670.071 KEUR on December 31st, 2018 (the obligation contains the taxes on the amount of the possible underfunding). The fund is funded on the basis of the annual periodic cost, also calculated according to the PUC-method. On December 31st, 2018 the total investments portfolio of this fund amounts to 605.184 KEUR.					
Following the advice of the CBN 2018/15 issued 20 June 2018, the valuation of the pension liabilities under Belgian GAAP needs to be based on current salaries, without considering future salary developments. In addition, as required by Belgian law, the plan assets in the pension fund more than fully cover the prudent calculation of the vested benefits per 31 December 2018. On this basis, no provision for underfunding needs to be recognized in Belgian statutory annual accounts.

In the context of various acquisitions in 2017 and 2018, there are contingent commitments (earn outs) for a total amount of 23.5 million euros. These obligations are payable between 2019 and 2022 to the extent that the agreed conditions are met.

Some credit facilities are conditional to the respecting of certain debt ratios at group level.

Proximus gives support letters to some of its affiliates. These letters provide assurance that the affiliates will be able to fulfil their financial obligations.

Proximus often has, for the rented spaces where she installs network antennas, the obligation to hand over these spaces in their original state at the end of the rent agreement.

Universal Services

In accordance with the law of 13 June 2005 on electronic communication, Proximus is entitled to claim compensation for the social tariffs that it has offered since 1 July 2005 as part of its universal service provision. For every operator offering social tariffs, the BIPT is required to assess whether or not there is a net cost and an unreasonable burden. In May 2014, the BIPT, together with an external consultant, started to analyze the net costs Proximus bore in providing the social discounts, which were offered over the period 2005-2012, the aim being to assess the possibility of there being an unreasonable burden on Proximus, and hence the possibility of a contribution being due by the operators liable to pay a contribution. On 1 April 2015, however, Proximus withdrew its request for compensation, referring to the legal opinion of 29 January 2015 of the Advocate General of the European Court of Justice, following the prejudicial question that the Belgian Constitutional Court submitted regarding the law of 10 June 2012 (case C-1/14), more precisely regarding the possibility of classifying mobile social tariffs as an element of the universal service. Proximus reserved its right to introduce a new request for compensation once the implications of the Court's decision would be clear. In a judgment of 11 July 2015, the European Court of Justice stated that mobile social tariffs cannot be financed by means of a compensation mechanism to which specific undertakings have to contribute.

In its judgment of 3 February 2016 (no. 15/2016), the Constitutional Court, taking into account the Judgment of the Court of Justice, indicated that since the Member States are free to consider mobile communication services (voice and internet) as additional mandatory services, the Legislator could impose the obligation on mobile operators to provide mobile tariff reductions to social subscribers. However, it specified that a financing mechanism for such services involving specific undertakings cannot be imposed. It is up to the Legislator to decide whether, for the provision of such services, compensation should be calculated by means of another mechanism which does not involve specific undertakings.

In its communication of 27 December 2017 regarding the monitoring van the universal service, the BIPT states the following: '(PXS translation)'Following this, the Constitutional Court has decided on 3 february 2016 that Belgium cannot oblige the telecomoperators to grant social tariffs for mobile telephony and mobile internet. However, the government could decide to make the services accessibles to the public as 'additional obligatory services', however without a possibility to have a financing from the sectorial compensation fund.' Given this reading of the BIPT, it has been decided not to grant any longer social tariffs on standalone mobile internet formulas. Social reductions on bundles for mobile internet are being maintained.

In 2015, the Minister competent for electronic communications announced a reform of the legal system of social tariffs, prioritizing a simplification of the current system as well as an evolution towards a system based on voluntary engagement. Proximus has focused its attention mainly on the proposal of suggestions for reform of the social tariffs. These should be incorporated in a 'miscellaneous provisions' law, but so far the Minister has not yet transformed his intention into a concrete draft law. The claim for compensation for the social tariffs has not been renewed.

Tax on pylons

The European Court of Justice confirmed in two Proximus cases of December 2015 that a tax on pylons is not, per se, in contradiction with European law.

Proximus continues to file tax complaints and to launch legal proceedings with respect to tax on pylons tax bills received from municipalities and provinces in the three regions based on other arguments.

New evolutions in jurisprudence led the Group to reassess the liabilities related to Taxes on Pylons in 2018. This resulted in a material increase of cost. The position as recognised in the Financial Statements reflects management's best estimate of the probable final outcome.

Compensation mechanism statutory retirees

On 31 December 2003, Proximus transferred to the Belgian State its legal pension obligation for its statutory employees and their survivors, in exchange of a payment of EUR 5 Billion to the Belgian State. The transfer of the statutory pension liability to the Belgian State in 2003 was coupled with an increased employer social security contribution for civil servants as from 2004 and included an annual compensation mechanism to off-set certain future increases or decreases in the Belgian State's obligations as a result of actions taken by Proximus. Following a change in law (Program Law of 25 December 2017), as from 2018, the obligation to off-set stopped for the Belgian State.

V.A.T. unit

The company is member of a VAT group, called 'Proximus VAT Group', established on October 1, 2010 un-der the VAT number BE0829.001.392. All members of the VAT group are jointly liable towards the State for all VAT debts, interest, penalties and costs which are due under the acts of the VAT group members. In 2018, the members of Proximus VAT Group were Proximus S.A. under public law, Proximus Group Ser-vices S.A., Proximus SpearIT S.A., ConnectImmo S.A., Be-Mobile S.A. (previously called 'Mobile-For S.A.'), Proximus ICT Expert Community B.V.B.A., ClearMedia S.A., Flow S.A. (till 30/06/2018), B-Mobile Tech S.A. and Scarlet Belgium; since 01/03/2018 Davinsi Labs and Unbrace and since 01/10/2018 Codit, Codit Holding and Codit Managed Services.

Claims and legal proceedings

Our policies and procedures are designed to comply with all applicable laws, accounting and reporting requirements, regulations and tax requirements, including those imposed by foreign countries, the EU, as well as applicable labour laws.

The complexity of the legal and regulatory environment in which we operate and the related cost of compliance are both increasing due to additional requirements. Furthermore, foreign and supranational laws occasionally conflict with domestic laws. Failure to comply with the various laws and regulations as well as changes in laws and regulations or the manner in which they are interpreted or applied, may result in damage to our reputation, li-ability, fines and penalties, increased tax burden or cost of regulatory compliance and impacts of our financial statements.

The telecommunications industry and related service businesses are characterised by the existence of a large number of patents and trademarks. Litigation based on allegations of patent infringement or other violations of intellectual property rights is common. As the number of entrants into the market grows and the overlap of product functions increases, the possibility of an intellectual property infringement claim against Proximus increases.

Proximus is currently involved in various claims and legal proceedings, including those for which a provision has been made and those described below for which no or limited provisions have been accrued, in the jurisdictions in which it operates concerning matters arising in connection with the conduct of its business. These include also proceedings before the Belgian Institute for Postal services and Telecommunications ("BIPT"), appeals against decisions taken by the BIPT, and proceedings with the tax administrations.

1. Broadband/Broadcast Access Related Cases

Between 12 and 14 October 2010, the Belgian Directorate General of Competition started a dawn raid in Proximus's offices in Brussels. This investigation concerns allegations by Mobistar and KPN regarding the wholesale DSL services of which Proximus would have engaged in obstruction practices. This measure is without prejudice to the final outcome of the full investigation. Following the inspection, the Directorate General of Competition is to examine all the relevant elements of the case. Eventually the College of Competition Prosecutors may propose a decision to be adopted by the Competition Council. During this procedure, Proximus will be in a position to make its views heard. (This procedure may last several years.)

During the investigation of October 2010, a large numbers of documents were seized (electronic data such as a full copy of mail boxes and archives and other files). Proximus and the prosecutor of the Competition authority exchanged extensive views on the way to handle the seized data. Proximus wanted to be sure that the lawyers "legal privilege" (LPP) and the confidentiality of in house counsel advices are guaranteed. Moreover, Proximus sought to prevent the Competition authority from having access to (sensitive) data that

were out of scope. Not being able to convince the prosecutor of its position, Proximus started two proceedings, one before the Brussels Court of Appeal and one before the President of the Competition Council, in order to have the communication to the investigation teams of LPP data and data out of scope suspended. On 5 March 2013, the Court of Appeal issued a positive judgment in this appeal procedure by which it ruled that investigators had no authority to seize documents containing advices of company lawyers and documents that are out of scope and that these documents should be removed/destroyed. To be noted that this is a decision on the procedure in itself and not on the merit of the case.

On 14 October 2013, the Competition authority launched a request for cassation against this decision. Proximus has joined this cassation procedure. Eventually, on 22 January 2015, the Supreme Court decided to confirm the Judgment of 5 March 2013, except for a restriction with regard to older documents, which was annulled. It is up to the Court of Appeal now to take a new decision on this restriction. In March 2014, KPN has withdrawn its complaint; Mobistar remaining the sole complainant.

2. Mobile On-net cases related

In the proceedings following a complaint by KPN Group Belgium in 2005 with the Belgian Competition Authority the latter confirmed on 26 May 2009 one of the five charges of abuse of dominant position put forward by the Prosecutor on 22 April 2008, i.e. engaging in 2004-2005 in a "price-squeeze" on the professional market. The Belgian Competition Authority considered that the rates for calls be-tween Proximus customers ("on-net rates") were lower than the rates it charged competitors for routing a call from their own networks to that of Proximus (=termination rates), increased with a number of other costs deemed relevant. All other charges of the Prosecutor were rejected. The Competition Authority also imposed a fine of EUR 66.3 million on Proximus (former Belgacom Mobile) for abuse of a dominant position during the years 2004 and 2005. Proximus was obliged to pay the fine prior to 30 June 2009 and recognized this charge (net of existing provisions) as a non-recurring expense in the income statement of the second quarter 2009.

Proximus filed an appeal against the ruling of the Competition Authority with the Court of Appeal of Brussels, contesting a large number of elements of the ruling: amongst other the fact that the market impact was not examined. Also KPN Group Belgium and Mobistar filed an appeal against said ruling.

Following the settlement agreement dated 21 October 2015, the appeals of Base and Mobistar against the decision of the Belgian Competition Authority are withdrawn. Proximus will continue its appeal procedure against this decision.

In October 2009, seven parties (Telenet, KPN Group Belgium (former Base), KPN Belgium Business (Tele 2 Belgium), KPN BV (Sympac), BT, Verizon, Colt Telecom) filed an action against Belgacom mobile (currently Proximus and hereinafter indicated as Proximus) before the Commercial Court of Brussels formulating allegations that are similar to those in the case mentioned above (including Proximus-to-Proximus tariffs constitute an abuse of Proximus's alleged dominant position in the Bel-gian market), but for different periods depending on the claimant, in particular, in the 1999 up to now timeframe (claim for EUR 1 provisional and request for appointment of an expert to compute the precise damage). In November 2009 Mobistar filed another similar claim for the period 2004 and beyond. These cases have been postponed for an undefined period.

Following the settlements with Telenet, KPN, BASE Company and Orange, the only remaining claimants are BT, Verizon and Colt Telecom.

Additional information

Proximus PLC under Belgian public law supplies telecommunication services to the Belgian State, to various administrations of the Belgian State and to various State-controlled enterprises. All such transactions are made within normal customer/supplier relationships on terms and conditions that are not more favourable than those available to other customers and suppliers. The services provided to those administrations and those various State-controlled enterprises do not represent a significant component of the net income of Proximus PLC under Belgian public law.

Proximus has transactions with Belgacom International Carrier Services S.A. for inbound and outbound telecom services. The underlying contracts are approved by management taking into account the current market references.

As far as transactions with members of leading supervising or governing bodies concerns, we refer to the section "corporate governance statement" of the annual report and the remuneration report in which the remuneration of the members of the Board of Directors and the members of the Executive Committee are detailed.

INFORMATION RELATING TO CONSOLIDATED ACCOUNTS

INFORMATION TO DISCLOSE BY EACH ENTERPRISE THAT IS SUBJECT TO COMPANY LAW ON THE CONSOLIDATED ACCOUNTS OF ENTERPRISES

The enterprise has drawn up published a consolidated annual statement of accounts and a management report*

The enterprise has not published a consolidated annual statement of accounts and a management report, since it is exempt for this-obligation for the following reason*

The enterprise and its subsidiaries on consolidated basis exceed not more than one of limits mentioned in art. 16 of Company Law*

The enterprise only has subsidiaries which, considering the assessment of the consolidated assets, consolidated financial position or consolidated results, individual or together, are of a negligible size* (Art. 110 of Company Law)

The enterprise itself is a subsidiary of an enterprise which does prepare and publish consolidated accounts in which annual accounts of the enterprise are included.*

Name, full address of the registered office and, for an enterprise governed by Belgian Law, the company number of the parent company(ies) and the specification whether the parent company(ies) prepare(s) and publish(es) consolidated annual accounts in which the annual accounts of the enterprise are included**

If the parent company(ies) is (are) (an) enterprise(s) governed by foreign law disclose where the consolidated accounts can be obtained**

^{*} Delete where no appropriate.

^{*} Where the accounts of the enterprise are consolidated at different levels, the information should be given for the consolidated aggregate at the highest level on the one hand and the lowest level on the other hand of which the enterprise is a subsidiary and for which consolidated accounts are prepared and published.

VALUATION RULES

The valuation rules comply with the terms of Chapter II of the R.D. of Jan 30, 2001 modified by R.D. Dec 18, 2015.

These rules were approved and modified by the Board of Directors on May 27, 1993, Dec 4, 1997, Oct 22, 1998, Oct 28, 1999, Oct 26, 2000, April 25, 2002, Oct 23, 2003, Dec 13, 2004, Dec 18, 2008, Feb 24, 2011, March 1, 2012, February 27, 2014 and February 28th, 2019.

BALANCE SHEET

FORMATION EXPENSES

The debt issuance costs are charged to income statement in the year in which they are incurred. Material formation expenses are capitalised and depreciated over a 5 year period. The acquisitions of the year are depreciated pro rata temporis.

Restructuring costs are expensed as incurred.

INTANGIBLE ASSETS

The intangible assets are measured at cost; this is the purchase price, production cost or the contribution value. General expenses are not included in the cost.

Intangible assets with an indefinite useful life are not amortized. An impairment loss on these assets is recorded in case of a permanent loss or durable decrease of value.

Intangible assets with a finite useful life are amortized on a straight line basis (except for broadcasting rights acquired in 2018) at a fixed rate using the following plan, established on the basis of economic criteria:

- Goodwill: over the estimated useful life, if the useful life cannot be estimated reliably: 5 to 10 years
- Software: 5 years or the license period in case the latter one is shorter than 5 year
- Network licenses: over the license period
- Rights to use, football and broadcasting rights: over the contract period
- Customer bases and trademarks: 3 to 10 years

The acquisitions of the year are amortized pro rata temporis.

Broadcasting rights acquired in 2018 are amortized using the double of the lineair depreciation rate with a maximum of 40% of the initial purchase value.

The goodwill resulting from the merger of early 2010 is depreciated over 15 years. This depreciation period is justified by the long life character of the expected profitability of all the merged companies.

The goodwill resulting from the merger of Wireless Technology in 2016 is depreciated over 10 years. This depreciation period reflects the useful life over which the economic benefits from the assets in the business combination are expected to be consumed by Proximus.

TANGIBLE ASSETS

Tangible assets are valued at cost; this is the purchase price, production cost or the contribution value. General expenses are not included.

Tangible assets with an indefinite useful life are not depreciated. An impairment loss on these assets is recorded in case of a permanent loss or durable decrease of value.

Tangible assets with a finite useful life are depreciated using the straight line method (except for tangible assets acquired in 2018). The tangible assets acquired in 2018 are depreciated using the annual declining method meaning the double of the linear rate with a maximum of 40% of the initial purchase value.

The determination of the depreciable amount takes into account a residual value if this can be determined accurately, is material and its realization is sufficiently certain.

They are depreciated at a fixed rate using the following plan, established on the basis of economic criteria:

	Useful life (years)
Land and buildings	
- Land	indefinite
- Buildings and building equipment	22 - 33
- Facilities in buildings	3 - 10
- Leasehold improvements	3 - 10
Technical and network equipment	
- Cables and ducts	15 – 20
- Switches	8 – 10
- Transmission equipment	6 – 8
- Radio Access Network	6 – 7
- Mobile sites and site facility equipment	5 – 10
 Equipment installed at client premises 	2 – 8
 Data and other network equipment 	2 - 15
Furniture and vehicles	
- Furniture and office equipment	3 – 10
- Vehicles	3 – 10

Fixed assets held under leasing or other similar rights are depreciated based on the useful life of the fixed asset as defined in the contract.

Assets under construction and advance payments are depreciated over the life term of the assets to which they relate.

Fixed assets that are put out of order are valued at net book value or at their expected realisation value if lower. They are no longer depreciated.

The acquisitions of the year are depreciated pro rata temporis.

The tangible assets as well as the assets related to the broadcasting rights acquired in 2018 are depreciated using the annual declining method meaning the double of the linear rate with a maximum of 40%. The use of the annual declining method has an impact of 26 Mio€ compared to the linear method.

FINANCIAL ASSETS

Participating interests and shares are valued at their acquisition cost, which is the purchase price or the contribution value. Only the material ancillary costs are capitalised.

A write down is recorded if a durable permanent impairment or decrease in value of these assets is observed, based on the financial situation, the profitability or the perspectives of the company in which the participating interests or shares are held, taking into account the CBN/CNC advice n° 126-

Receivables are recognized at their nominal value. An allowance is recorded when, at the due date, the payment is partially or entirely uncertain.

AMOUNTS RECEIVABLE AFTER MORE THAN ONE YEAR

Amounts receivables are booked at nominal value. Amounts receivable expressed in foreign currencies are converted to EUR at the rate in force at the date of delivery and are translated at the year-end rate.

A bad debt allowance is recorded on the nominal value when at the due date, the payment is partially or entirely uncertain.

STOCKS AND CONTRACTS IN PROGRESS

Nr.

Inventories of consumables and goods for resale are booked at their cost.

At the time of the annual inventory, the Weighted Average Price method is used to assess the various subdivisions in this caption.

A write down is applied when the realisable value or market value is lower than the acquisition cost or to take into consideration the risks inherent to the nature of the products.

Contracts in progress and work in process are valued at production cost or at market price (if this is lower than the production cost).

The projects of the ICT activity (contracts in progress) are taken into result based on stage of completion.

AMOUNTS RECEIVABLE WITHIN ONE YEAR

These amounts appear on the balance sheet at nominal value.

A bad debt allowance is recorded on the nominal value when at the due date, the payment is partially or entirely uncertain.

Amounts receivable expressed in foreign currencies are converted into EUR at the rate in force on the date of delivery. At balance date they are translated at closing rate.

CURRENT INVESTMENTS

Current investments are valued at nominal value when they concern funds held in financial institutions and at acquisition cost, acquisition price without ancillary costs, in the other case.

A write-down is recorded on the nominal value or on the acquisition cost when the sales value on the closing date of the balance sheet is less than the previously booked value.

For the determination of the realisable value of own shares the market value is taken into account on the one hand and the strike price of granted share options for which these shares are held on the other hand.

Current investments in foreign currencies are translated into EUR at the rate in force on the closing date of the balance sheet.

CASH AT BANK AND IN HAND

Cash at bank and in hand is valued at nominal value. A write-down is recorded on the nominal value when the realisation value on the closing date of the balance sheet is less than the previously booked value. Cash at bank and in hand in foreign currencies is translated into EUR at the rate in force on the closing date of the balance sheet.

PROVISIONS AND DEFERRED TAXES

On the closing date of the balance sheet, an inventory is made of all foreseeable liabilities and contingent losses arising during the current year or during prior years. Provisions are established based on a reliable estimate of the risk on the moment of the establishment of the annual accounts. Provisions reflect the best estimate of probable costs or, when it relates to an obligation, the best estimate of the amount necessary to settle this at year-end closing.

In the framework of the departure plans, provisions are made after approval by the Joint Committee. These provisions are determined as the present value of the benefits granted during the period of inactivity, both for current and future beneficiaries.

In the framework of post-employment benefits, a provision is made for the current and future beneficiaries of these benefits. For the current beneficiaries this provision is determined as the present value of the obligation resulting from the granted benefits. For future beneficiaries, this provision is built up gradually based on the number of years of service. As a consequence, at the pension date, the provision corresponds also to the present value of the obligation for the granted benefits.

The provision for damages concerning vehicles is built by the company as "own insurer" and is valued through an individualisation of all damages that occurred before 2014 and for which the costs will reasonably be bared by the company in future years.

Deferred taxes are booked in compliance with article 76 of the R.D. of January 30, 2001.

AMOUNTS PAYABLE WITHIN ONE YEAR AND AFTER MORE THAN ONE YEAR

Amounts payables are recognized on the balance sheet at nominal value.

Amounts payable in foreign currencies are converted into EUR as follows:

- loans in foreign currencies at the rate in force at the time the loan is concluded;
- trade debts at the exchange rate on the date of entry of the reception of the goods and services.

Trade debts and financial debts, not covered against exchange risks, expressed in foreign currencies are translated at closing rate.

TRANSLATION DIFFERENCES

Exchange gains and losses resulting from the translation are taken in the income statement.

INCOME STATEMENT

The items in the income statement are valued at nominal value. Own construction is booked at production cost excluding indirect costs.

TURNOVER

Revenue is recorded in the period to which they refer, regardless of their payment.

The turnover takes commercial and volume discounts into account.

Specific revenue streams and related recognition criteria are as follows:

- revenue from fixed line, mobile and carrier traffic is recognized on usage.
- revenue from connection fees and installation fees is recognized in income at the time of connection or installation.
- revenue from sales of communication equipment is recognized upon delivery to the third party distributors or upon delivery by the own Proximus shops to the end-customer.

200	2.239.951	C 6.19
1 202.200.	~~	

 revenue relating to the monthly rent, the monthly subscription fee and access fees in the framework of fixed and mobile telephony, internet and digital television are recognized in the period in which the services are provided.

- prepaid revenue such as revenue from pre-paid fixed and mobile phone cards is deferred and recognized based on usage of the cards.
- maintenance fees are recognized as revenue over the maintenance period on a pro-rata basis.
- revenue from the ICT activity linked to projects is recognized in the result in function of the realization percentage.

RIGHT AND COMMITMENTS NOT ACCRUED IN THE BALANCE SHEET

The rights and commitments not accrued in the balance sheet are mentioned in the notes, per category, at the nominal value of the commitment in the contract, or failing that, at their estimated value.

SUPPLEMENTARY INFORMATION

APPROPRIATION ACCOUNT AND EVOLUTION OF THE RESERVES

In 2018, the profit of the financial year available for appropriation amounts to 451.153.877 EUR.

- 5 % of this net profit is to be appropriated to the legal reserve. Since this obligation expires when the legal reserve reaches 10 % of the Capital, limit that has been reached in the meanwhile, there is no appropriation to the legal reserve.
- The accumulated profit from previous years amounts to 130.230.238 EUR.

The profit to be appropriated then amounts to 581.384.115 EUR.

- 248.878.156 EUR net transfers from the reserves, to be further detailed as follows:
 - 249.595.805 EUR transferred from the reserves available for distribution:
 - 541.404 EUR transferred from the reserves mainly in the framework of exercised stock options;
 - 1.259.054 EUR transferred to the reserves unavailable for distribution for own shares.
- 484.602.858 EUR are dividends to be distributed, as decided by the General Assembly. This amount can be further detailed as follows:
 - 161.370.563 EUR has been paid on December 7th, 2018 as interim dividend;
 - 528.478 EUR have been paid mainly in the framework of stock options exercised in 2018;
 - 322.703.817 EUR shall be distributed in April 2019;
- 28.003.503 EUR to be distributed to the personnel, pursuant to article 43 of the by-laws, representing 5 % of the result before taxes.
- The resulting profit to be carried forward amounts to 317.655.909 EUR.

A SUMMARY of the accounts relative to the PUBLIC SERVICE DUTIES (obligation stipulated by art. 27 of the law of March 21, 1991).

Article 155 of the law of June 13, 2005 with regard to the electronic communication has cancelled the chapter V, that treats the public telecommunication service (being the tasks of public service), of the law of March 21st, 1991 and has been replaced by the provisions of chapter I, that treats the universal service (art. 68 to 104 included) of title IV of the new law. However, article 86ter of the law of March 21st, 1991 has been preserved and taken over as such under chapter II – Supplementary services of title IV of the law of June 13, 2005 (art. 105 to 107 included). The figures below contain the assignment of the public services as defined in the articles of the law and in article 4 in the management contract.

1.	Operating income	0.00	EUR
2.	Operating charges	162.122,78	EUR
	Operating result (loss)	(162.122,78)	EUR

The calculations were made based on a cost model developed by Proximus S.A. de droit public/N.V. van publiek recht for the products that meet the requirements of the management contract and based on business economic criteria taking into account the expected life span of the products.

INVESTMENT GRANTS

Proximus has not received investment grants from public governments or institutions in 2018.
